HALLPASS by Bobby Farrelly & Peter Farrelly & Kevin Barnett & Pete Jones

MAGGIE: Remember last week when we went to Lucy's award thing?

That night when we got home, Rick and I were gonna ... you know ... and I was waiting for him in bed while he tucked the kids in, and I started wondering who he would be thinking about during sex. Would it be the girl he checked out on the way into the party? Or would it be Missy Frankenfield-- because I noticed him gawking at her? Or how about one of the waitresses, or maybe somebody he saw at work that day? Then when he came into the room, I did something I'd never done before: I pretended to be asleep.

Look, I understand that people have fantasies and that you're not always thinking about the person you're with. But it's just ... I don't know ... it's been too long since I felt that he was thinking about me.

I need this hall pass to work, Grace, because if it doesn't, I don't know what's going to happen.
